DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-2, 6-7, 9, 11-12, 16-17, 19, 21-22, 26-29, 32-33, 35, 38, and 40-45 drawn to a method and system for grouping assets, classified in class 705, subclass 36R.
- II. Claims 31, 34, 36-37, and 39 drawn to a method of using a hybrid model for first and second portfolios, classified in class 705, subclass 36R.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. The invention of group I may be used without the hybrid model defined in Group II. Group II includes the limitation for a hybrid model for first and second portfolios.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
